

THE BLAIRMORE ENTERPRISE

Vol. XXXVII, No. 10.

THE BLAIRMORE ENTERPRISE, Friday, March 8, 1946.

\$2.66 PER ANNUM

"Serve the Church that the Church
May Serve You."

CENTRAL UNITED CHURCH BLAIRMORE

Rev. James McKelvey, Minister.

Services Sunday next:

11.00 a.m., Senior school.
2.00 p.m., Junior school.
7.50 p.m., Public Worship.

ST. LUKE'S CHURCH, BLAIRMORE

Rector: Rev. W. E. Brown

The first Sunday in Lent:

Holy Eucharist 11 a.m.
Sunday school 12 noon.
Wednesday, Friday and Saturday of the coming week will be Ember days when we pray for the ministry of our church.

SALVATION ARMY, COLEMAN

Captain and Mrs. T. Smith,
Officers in charge.

Sunday services:

11 a.m., Holiness meeting.
2.30 p.m., Directory class.
5 p.m., Sunday school.
7.30 p.m., Salvation meeting.

Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.

Thursday: 8 p.m., Prayers meeting. Funerals, dedications and marriages on application to the local officers.

HILLCREST UNITED CHURCH

Services every Sunday at 8 p.m.

BELLEVIEW UNITED CHURCH

Services at 7.30 p.m., every Sunday.

COWLEY UNITED CHURCH

Services alternate Sunday mornings at 11 o'clock.

Rev. W. H. IRWIN, Minister.

BELLEVIEW BAPTIST CHURCH

Pastor Evangelist: Alfred Siple

10.30 a.m., Sunday school.

11.30 a.m., Morning service.

We preach the Victory Life of Christ, and invite you.

TAKE PRIDE IN ALBERTA

Currently appearing in weekly and daily newspapers is a series of advertisements sponsored by the Calgary Brewing and Malting Company. The advertisements are titled "Take Pride in Alberta" and set out in both picture and writing for the achievements and future possibilities of our province.

Far pastures look green when we fall to notice the luscious growth right under foot. We become so accustomed to our own advantages that we fail to realize just how well off we are until our good fortune is pointed out to us. These well written, well planned, and timely advertisements should bring to all Albertans a new appreciation of their province as well as selling Alberta to many new settler citizens.

The same company is also sponsoring a series of radio broadcasts by Capt. J. Harper Prowse, Army representative in the provincial legislature and newspaperman who has, through his untiring efforts, become the No. 1 spokesman for the returned men in this province. His weekly broadcasts can be heard Sundays from CFAC, Calgary, at 9:45 p.m. or from CFRN, Edmonton, Thursdays, at 8:15 p.m.

Winston Churchill is to visit Canada this year and receive an honorary degree from the University of Toronto.

S. G. Bannan and T. J. Costigan, local lawyers, attended the Supreme Court sittings this week in Macleod.

COWLEY HAPPENINGS

Mrs. George Dwyer is on a visit of several weeks with her mother at Ozark, Missouri, where she was born and grew to womanhood.

Mr. and Mrs. T. R. Jones spent a few days the early part of the week visiting in Lethbridge.

Mrs. Helen Stuart is visiting relatives in Lethbridge this week.

Mrs. Griffith Parry and her son Jimmie were week-end visitors to Calgary.

Mrs. Malcolm McMillan has returned from spending a couple of weeks visit in Lethbridge.

Mrs. Doris Sandeman has returned from a recent visit to Calgary.

Mrs. Sagar, of Canal Flats, B.C., who has spent the last several weeks with her sister, Mrs. Linden Martin, and family, here, is now a patient in the hospital at Macleod, being the proud mother of a new baby daughter, born on March 2nd.

The monthly meeting of the AFU will be held in Wilson's hall on March 14th, at 8.30 p.m. when W. R. Hanson, district agriculturist, will give a demonstrative address on soil control, also on the co-operative packing plant. Come and bring your neighbors, it's free for all.

H. J. Mather, weed expert of the department of agriculture, Edmonton, sponsored by the Municipality District of Pincher Creek No. 9, addressed a well attended meeting here on Wednesday afternoon, March 6th, when he formulated a plan to eradicate hairy vetch, which is becoming a source of anxiety to the farmers of this district.

Special speakers from the Coaldale Bible School, sponsored by the Cowley Sunday school, will be here to address audiences in the Wilson hall at 2.30 p.m. and again at 7 o'clock in the evening of Sunday, March 10th. These will be the final sessions of music. Large crowds are expected at these two meetings of religious devotion.

Harry Smyth drove his truck up to Calgary on Wednesday to help move the household effects of Mr. and Mrs. Arthur Gray to their new farm home which they purchased a few months ago from the late William E. Tustian a mile and a half south of Cowley.

The local Masons were at home to their families in their hall here on Thursday evening, Feb. 28th, when a sumptuous supper was served at 7.30 with tables running the length of the hall, festively decorated with bouquets of cut flowers and evergreens and gleaming under the weight of tasty viands, after which whilst was indulged in with prizes being won by Mrs. M. A. Murphy, ladies' first; consolation, Mrs. Harry Smyth; guests' first, Alvin Murphy; consolation, Bert Connolly. The evening's entertainment included a lively dance with such old-time numbers as quadrilles, schottisches, polkas, strip the willow, etc. Both young and old with hoary heads tripped the light fantastic into the wee sma' hours.

A party was given on Monday afternoon, March 4, in honor of six of the local ladies whose birthdays fall in the month of March, when Mrs. William Cochrane lent her home for the occasion. The honor guests were Mrs. Cochrane, Mrs. F. A. Tustian, Mrs. Arthur Tustian, Mrs. Edward Percival, Mrs. Robert Littleton and Mrs. Kenneth Martin. Acting hostesses were Mrs. E. F. Everett and Mrs. Willard Dwyer, with Misses Dale Martin and Margaret Cook waiting on the table which was centered with a bouquet of yellow daffodils and tall yellow tapers and bearing a dainty repast. Mrs. R. J. Day and Mrs. M. A. Murphy sat at either end of the table and poured tea. For amusement appropriate songs were sung and a contest was in order at which Mrs. Martin emerged the winner, with the prize being a lovely salad set.

The Fernie Free Press claims that Thomas Ughill seems to be lining up with the C.C.F. at Victoria.

THE RED CROSS

MUST CARRY ON

The world is in pain. There is more than enough work to do for all the agencies whose mission it is to relieve distress. The Red Cross has been one of the great sources of aid to victims of calamity, in peace as in war. If the crippled and the sick are to be helped throughout the land, if disasters are to be met effectively, if plague spots are to be wiped out and the general health of our people promoted — the Red Cross must carry on.

But the funds are needed to make these ministrations of mercy possible and effective. These funds come from the voluntary memberships and contributions of the general public from people who have a fellow-feeling for the misfortunes and sufferings of their neighbors, wherever they may be. The Red Cross is a true democracy of goodwill.

To carry on the work that is waiting to be done the Red Cross in Alberta needs \$200,000. During this month of March it is asking every good citizen in Alberta, who wants to be a good neighbor to those less fortunate, to join the Red Cross. A subscription of one dollar or more entitles you to membership. This is a challenge to free people to give freely in a cause that is truly international, that knows no boundaries of class or creed or color — the great cause of mercy.

Red Cross work begins at home. The international activities of the Red Cross and the terrific demands on its resources have overshadowed the good work it has been steadily carrying on right here at home. It was only natural that the need for aid on the battlefields of the world should hold the spotlight. The preparation and dispatching of parcels to prisoners of war, the treatment of blood donors, clinics and the establishment of blood banks for the emergency treatment of our wounded, were among the tremendous undertakings that were carried through here in Canada with the loyal and ungrudging support of the Canadian people.

There were the dramatic highlights of the Red Cross effort in wartime. The other work went quietly on, bringing healing and help and comfort and counsel in countless ways to the people of this Dominion. There are casualties of peace, too. There are little crippled children born to a heritage of deformity or stricken by accident or disease. For these the Red Cross Crippled Children's Hospital provides special skill and tender care, helping to restore normal strength and health to their broken bodies, and faith and courage to their daunted spirits. Thousands of children have been so helped in Alberta. The new larger hospital which is planned will make this help more widely available than ever.

Blood banks are needed in peace as well as in war. The Red Cross proposes to establish these all across the Dominion so that blood transfusions will be freely available to all who require this life-saving service.

At the outposts of civilization and in sparsely settled districts in Canada that cannot support a doctor, the Red Cross maintains nurses and nursing stations equipped to give emergency medical aid. These services, together with home nursing and practice training in First Aid in rural areas, bring help and comfort and essential instruction to portions of our population that would otherwise be left to face disaster and accident without competent treatment or care.

Surely no one would willingly countenance the restriction of such services. Indeed they should, and must, be extended. Whether they are or not depends on the average citizen. For it is the multitude of small subscriptions that give power to the Red Cross, power to move effectively wherever the need arises. It is the responsibility of EVERY CITIZEN who has a

C.N.P. SELECTED FOR ARMORED BRIGADE WORKSHOP

The Crows' Nest Pass has been selected for an Armored Brigade Workshop of 6th Division Reserve Force. Opportunity will be made available to become proficient in various mechanical and allied trades, as well as swelling the ranks of Canada's youngest corps, the RCME (pronounced Remé) and meaning Royal Canadian Electrical and Mechanical Engineers. This corps was formed in Canada 15th May, 1944, after having been adopted by the British army in action two years previously.

The operational role of this unit is primarily the maintenance and repair of all equipment used by an armored brigade, i.e., tanks, armored cars, light and heavy vehicles, armament, wireless and radar, small arms, instruments, etc.

In the training of the unit opportunity will be afforded to qualify and become more proficient in one or more of the following trades: fitters, vehicle mechanics, machinists, armorers, blacksmiths, welders, tinmiths, carpenters, wireless and radar mechanics, instrument mechanics, etc.

In addition to the foregoing opportunity will be afforded for sports, recreational shooting, interunit competitions and fundamental military training.

A six ton mobile workshop was on display at Bellevue on the evening of March 5th and the following days at Blairmore and Coleman.

EAR-MARKING OF MOTOR REVENUES ENDORSED

An adequate network of hard surfaced roads in Alberta would effect an economic saving of at least \$7,000,000 to motor vehicle owners. This was

stated by Elmer E. Roper, M.L.A. "It would be good for business for our people if between \$30,000,000 and \$40,000,000 worth of roads could be constructed in the next year or two, to be paid for over a period of five or six years by ear-marking for that period the more than \$7,000,000 a year we collect from motor vehicle owners."

Officials of the Alberta Motor Association expressed keen interest in the members' remarks. They recalled that for many years the AMA has urged the ear-marking of motor revenues and the use exclusively for road construction and maintenance.

The AMA has made its appeals to members of the legislature to bring this policy into operation, in view of its many inherent advantages to an improved highway system. Also, it has contended that this is only fair to the motorists who are bearing such a heavy taxation burden.

Adoption of such a policy would mean better roads in all parts of the province, main, secondary and rural.

NEW BRITISH BLANKET LIGHTEST IN THE WORLD

Britain has produced a blanket weighing less to the square yard than any other in the world. Shrink proof and rot proof, it weighs only thirty-three ounces — for a full size. It looks like a quilt, has pure fleece stuffing with a Fartean silk fabric cover, and traps millions of air pockets in the fleece, giving the maximum warmth with the minimum weight. Dressing gowns, bed jackets, cot-covers — all can be stuffed with the super wool material, which was solved after years of research by Britain's wool industry. Production of the new blanket at present is intended for export.

thought for the stricken and helpless to see that this Red Cross Campaign in Alberta is a success.

In the name of all the unfortunate, the Red Cross asks everyone in Alberta who cannot ignore suffering and hardship, to become a member, or renew membership, in the Red Cross.

VOCATIONAL GUIDANCE IN SCHOOLS

The necessity for a comprehensive vocational guidance and training system in Canadian schools to prepare students for post-graduation employment has long been recognized by the Department of Labor and other appropriate organizations as a vital factor toward the establishment of our nation on a sound economic and social basis.

In a brief submitted to the Manitoba Assembly on Education, A. V. Pigott, assistant superintendent, Winnipeg public schools, recommended that the present school curricula be supplemented by trade or professional people of finding a suitable place in the world of employment.

Pointing out that the majority of students need a great deal of guidance and pre-occupational selection and training before they seek to earn their own living, Mr. Pigott stressed the importance of Technical and Vocational High Schools which would emphasize the "practical" side of learning. He enumerated them as follows:

A. The Comprehensive High School which offers matriculation, commercial, technical and vocational shop programmes.

B. The Technical High School which emphasizes preparation for employment on the technical level. 75 per cent of the instruction is devoted to the teaching of English, mathematics, sciences, and the social studies; and 25 per cent to manipulative work in shop and laboratory for the development of specialized skills.

C. The Vocational High School which aims to provide work experience, together with shop and related knowledge necessary to prepare for entrance into skilled trades and business occupations.

The primary objective of these special schools, it was explained, is to cultivate and develop the interests and aptitudes of the students so that when they finally leave school they would be prepared to make a living in a specific field of occupation.

In the brief, Mr. Pigott stressed the importance of a close liaison with the National Employment Service "Through its nation-wide facilities, the National Employment Service could furnish information as to the type and the amount of work available at any time. Research could be carried on to forecast the future needs of industry. Some fields of work will be increasing and others decreasing. Changes in the needs of the community or nation will affect the work conducted in the technical schools," he said.

Mr. Pigott also stated that the National Employment Service should take on the actual placement of students in occupations. "This demands highly trained personnel work and counselling," he said. "Great aid would be forthcoming through the school counsellors and national employment service placement officers. The two offices working together should assure a more effective placement and achievement than we ever had in the past."

There are other arguments in favor of maintaining such an employment service for guidance and placement. It would serve not only the young people from the schools, but all those seeking work, or wanting to change positions, or in need of retraining because of changing conditions.

SCOUT CABINET MINISTER

The first former Boy Scout to become a cabinet minister in Great Britain is John Hynd, recently appointed Chancellor of the Duchy of Lancaster. As a youth Mr. Hynd was a member of the 29th Perthshire Troop in Scotland, known as the Seaforth, from the fact they wore the Seaforth kilt.

LORD-FENMAN WEDDINGS

A quiet wedding was solemnized at St. Michael and All Angels church, Calgary, on the evening of February 25th when Alice Lillian Fenman, niece of Mr. and Mrs. H. Finkney, of Blairmore, became the bride of Harry Lord, son of Mr. Walter Lord, of Burnaby, B.C., and formerly of Blairmore.

The bride, given in marriage by Mr. J. G. Wise, wore a suit of plum colored gingham with flower hat, etc. Her carriage was of pink carnations and roses.

Mr. and Mrs. E. G. Montalbetti, of Blairmore, were the attendants.

The groom, recently returned after more than five years of war service, Mr. and Mrs. Lord will take up residence in Blairmore.

HILLCREST HAPPENINGS

Mr. and Mrs. V. Walosko were visitors at Lethbridge last week.

Mr. and Mrs. Noble Craig and son, accompanied by Mrs. Dellager and children, of Pincher Creek, were visitors here on Sunday.

Mrs. W. Fisher was a bridge hostess on Tuesday night. Three tables of bridge were played, with awards going to Mrs. A. Grant and Mrs. G. E. Cruickshank.

Jacky and Jimmy Craig were week-end visitors at Frank, the guests of their aunt, Mrs. Gaetz.

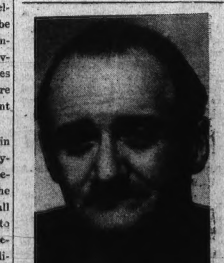

CAMPING INCREASES

Nearly 15,200 Canadian Boy Scouts attended 524 Scout camps last season according to the annual Scout census. This compared with 457 camps the year before, an increase of 87 camps, and 12,709 campers the previous year, or an increase of 2,492.

POLITICIAN

Helen Gabor Douglas is at home in both political and the film capital of the United States. As congresswoman for Hollywood in the U.S. House of Representatives, she spoke from Washington in the CBC series, "Women in Office" on Wednesday, March 6th, at 8:18 p.m. over the CBC Trans-Canada network.

EXECUTIVE CONDUCTS

Jean Baudet, supervisor of music and director of the French network for the CBC, will be guest conductor of the Toronto Symphony Orchestra in its weekly "Pop" concert on Friday, March 8th, at 7 p.m. on the CBC Trans-Canada network. Mr. Baudet has just returned from Texas where as pianist, he accompanied Raoul John, Canadian-born Metropolitan tenor in a recital tour of Texas cities.

WORLD HAPPENINGS
BRIEFLY TOLD

During the war, South American oil production increased more than 60,000 barrels daily.

The King has given \$100 (\$450) to the centenary appeal of the Surrey County Cricket club, of which he is Patron.

Letters in 182 languages were generated by the School of Oriental and African Studies, University of London, during the war.

Speed-up in the British telephone service is anticipated from the release of 1,100 switchboard operators from the army and civil defence exchanges.

The South African government is using DDT in Zululand in an effort to wipe out the tsetse fly, dread carrier of sleeping sickness. Areas are being sprayed from the air.

The national central bull committee of Holland recently presented 30,000 tulip bulbs to the Royal Botanical gardens, Kew. A similar gift was made to the royal parks.

Generalissimo Chiang Kai-shek hinted that his retirement from active public life might be impending this year after 15 perilous years of civil strife and war at China's helm.

Avon Castle, former seat of the Earl of Eglinton, has gone on sale for an asking price of \$35,000 (about \$157,000). The present earl—11th in the line—now is farming a few miles south of Calgary.

More than 16,000 copies of the Scriptures were circulated during 1945 by the Upper Canada Bible Society. It was reported at the annual meeting of the Society in Toronto.

Curling Match

The Roarin' Game Played in Germany By Canadian Troops

The "roarin' game w' broom and stone," made its debut in CAOP's first year when Major-General Chris Vokes, CBE, CBE, DSO, G.O.C. 3rd Canadian Infantry Division along the initial rock down the ice to open the Curling rink at Oldenburg airport.

Plans for the rink were started last autumn by Brigadier Colin Campbell, at that time overseas representative of the British Curling Association, got approval for the venture. When Brigadier Campbell left for Canada Lt.-Col. R. F. Johnson, RCME of Barrie, Ontario, took over the reins.

The "big problem" to organize a Curling League in CAOP was to find an arena with artificial ice. No such place was available.

Col. Johnson conducted a reconnaissance by securing a hangar at the Oldenburg airport as the site. Pipe and power plant for the artificial ice setup was a straight scrounge. The condensers and vat for cooling fluid were constructed by 3rd Canadian Works Section RCE. Student welders and RCE and RCME welders were employed to set up the pipe system.

Stones for curling were almost an impossibility. The original plan was for 48 sets. These could be purchased through Scottish factories, but wartime restrictions made no provision for handles.

Auxiliary Services in Edinburgh put an advertisement in Scotland's newspapers. Result was that the good Scotsmen of the Royal Caledonian Curling Club kicked through with 76 sets—handles and all.

Brooms were the last straw. These were shipped from Canada.

Six rinks are now going strong. Each brigade and division troops will be allotted one day a week on the rinks. Saturday and Sunday matches will be arranged through Lieut. H. S. Olafson of Hivertown, Sask., who heads the draw committee.

According to lists now in the hands of Capt. L. G. Mowatt of Calgary, chairman of the committees, there are almost 400 people in CAOP interested in curling. The greater percentage of these are other ranks.

The two rinks which prove themselves the best in the draw will have the opportunity of going to Scotland to play with the Royal Caledonian Curling Association at Edinburgh.

Constitutes A Hazard

Ripple Rock In R.C. Waters Is A Great Danger To Shipping

Senator G. G. McGeer renders public service when he insists that the work of removing Ripple Rock shall be rushed to completion.

Ripple Rock is a traffic hazard in Canadian waters between the northern part of Vancouver Island and Quadra and Maude Islands. Great sucking, gulping whirlpools, sudden in their appearance, bad yards in radius and up to 20 feet deep, are capable of engulfing huge logs and small launches and of splitting them to pieces like match-sticks.

Ten deep-sea and coastal ships have been wrecked on Ripple Rock in recent experience. The number of small vessels which have disappeared without trace is a matter of conjecture. But every coastal navigator views the hazard with something resembling dread. If not terror—Vancouver News-Herald.

ESCAPE FROM BURNING HOME AT STONEY CREEK—Frantic efforts of his father and three brothers failed to save the life of Ivan Hyslop, 17, trapped in his family home near Stoney Creek, Ont. Mr. and Mrs. Hyslop and one son are in hospital. Uninjured, David Hyslop, 10, managed to escape from the building. Russell, 11, holding his sister Margaret, cut his hand in jumping. The baby was dropped from a window.

DEER RESCUED—Rescuers tried for two and a half hours before they were able to get this deer out of the water. A resident of Owen Sound, Ont., discovered its plight early in the morning.

Must Be Definite

Mail Sorters Might Have Trouble In Deciding Which "Woodstock"

"Woodstock, where?" could well be the query of mail sorters. A bit of research produced the surprising fact that there are at least 15 Woodstocks in this world, including Ontario's city.

"Oh, I could name at least six," Postmaster James Steele said when asked about the number of Woodstocks.

Actual count shows two Woodstocks in Canada, Ontario, and New Brunswick. The Woodstock, Oxfordshire, England, is known to most people.

In the United States there are 12 Woodstocks. The state of Connecticut goes even farther and besides having Woodstock has West Woodstock and Woodstock Valley. Other states claiming the name are Alabama, Georgia, Illinois, Indiana, Maryland, Minnesota, New Hampshire, Ohio, Vermont, Virginia, and Wisconsin. Iowa nearly made the grade with Woolstock.

Cost Of War

Millions Of Lives Lost In World War Two

The Axis paid most heavily. Germany lost 3,250,000 men.

Japan's military deaths ran to about 1,500,000.

Italy's losses were between 150,000 and 200,000, and the Nazi satellites, including Romania, Finland, Hungary, and Bulgaria, totalled about 225,000.

Russia, with 3,000,000 deaths, had two-thirds of the total Allied losses. (American official estimates of Russian losses run as high as 7,000,000.) The British Empire lost 400,000 killed in action.

The United States had 325,000 battle deaths.

The Free French lost 167,000, Poland about 125,000, and the Yugoslav guerrillas 75,000.

Greek losses were 50,000, Belgium's 70,000, and Holland, in five days of fighting in May 1940, had 6,000 killed. China, since Pearl Harbor, has lost an estimated 250,000 men—Metropolitan Life Bulletin.

THE EXPLANATION

There was great consternation in the corporation office. The general manager had forgotten his penknife, which he used every afternoon to pare his fingernails. He made the rounds of his staff, but nobody had a knife.

Finally the exasperated general manager called the obliging, To the general manager's delight, the lad produced a penknife.

"How is it, Tommy," asked the general manager, "that you alone of all my large office staff always seem to have your knife with you?"

"I reckon," answered the boy, "it's because I can't afford more than one pair of pants."

The red, sunny side of an apple contains more vitamin C than does the greener, shady side. 2662

GARDEN
NOTES

Peace And Gardening

In this first year of peace it will be good to get back and plant a garden. After six years of world turmoil, of shortages and restriction it will do us good to get back to digging in the soil, to making plans in the assurance of what he shall sow he can expect to reap. This spring he can have an abundance of varieties of new flowers and vegetables from which to choose, and there will be solid satisfaction, relief for jaded nerves, in making plans, sowing the seeds, setting out plants and watching these tiny things grow in beauty, and in the case of vegetables succulent meals for the table.

Planning

A plan of the garden drawn roughly to scale will be most helpful. On this should be plotted the main features—that is, the approximate size, the location of trees, fences, walks, and so on. The plan is to adopt with flowers and shrubbery is to remember that these require about half as much space between as they will be high at maturity. The latter is most important.

Too many beginners never think when setting out a lilac or plum tree that the little bit of a thing that has been sent to them from the nursery will some day, and in a very few years at that, reach far over their heads. As a rule they plant all shrubs, trees and even the perennial flowers much too close together, and in the case of foundation planting, much too close to the house. In a year or two they find it difficult to cultivate and weed, or even to see out of the windows. Moreover, trees, shrubbery or flowers and some vegetables like corn and tomatoes, too, if planted too close together grow taller and spindlier than normally and are a prey to the first heavy wind that comes along.

Get A Catalogue

A good Canadian seed catalogue will prove an invaluable guide. In these are listed such vital information as season, time of blooming, so many days to maturity, size, color, hardiness and other points that the good gardeners take into consideration when laying out his season's campaign.

The First Vegetables

The very first vegetables to be sown outside will be lettuce, radish, spinach and garden peas. The first sowings of these can go in just as soon as the soil has dried sufficiently so that it will work up without turning to mud. Almost as soon as the kinds mentioned above will be the first carrots, beets and onions. Later will be the first potatoes and beans. Make at least three sowings of all vegetables two weeks apart, and even more if season and location are favorable. Use early, medium and late varieties.

TREASURES RESTORED

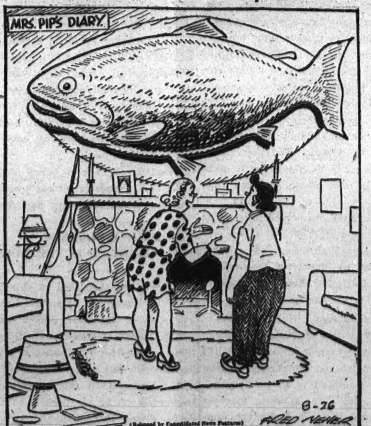

The London Times reports that Goering actually succeeded in getting stolen art treasures from Italy into Germany, but happily all have been recovered. Forty packing cases containing treasures taken by Mussolini from the Rome galleries when he left the capital were cleverly intercepted and rescued in transit under the very noses of the S.S. men to whose custody they had been entrusted, it is reported.

Santos, Brazil, is the leading coffee port of the world.

To Feel Right—Eat Right!

LIFE'S LIKE THAT

By Fred Neher

"Of course, it isn't that big... You know how Henry exaggerates."

REG'LAR FELLERS—Excess Baggage

WELL, ZOOIE, AFTER ALL, YOU DO WEIGH MORE'N ME ANY. THIS IS ONE OF THOSE SINGLE-MOTORED JOBS.

FRESH THING!

SUN.	MON.	TUE.	WED.	THU.	FRI.	SAT.
Pot Roast of Beef	Shepherd's Pie	Macaroni Scallop	Veal Stew	Corned Beef & Cabbage	Fish	Corned Beef Hash with Parsley Sauce
Group C	left-over	unrationed	Group C	Group C	unrationed	left-over
4 lbs. 2 coupons			1 1/2 lbs. 6 tokens	2 lbs. 1 coupon		
2 tokens for 10 oz. sausages.						

A pot roast of beef animated with colorful vegetables will get the week off to a savory start. On Monday it can be revamped as a Shepherd's Pie. If you haven't enough left-over gravy to moisten the ground meat, try a tin of tomato or vegetable soup and top the combine with fluffy mashed potatoes. Aside from these two meals, you may find that the four pound roast will leave you with some useful remnants for lunch box sandwiches. Meatless days are ideal ones on which to carry out your New Year's resolution to introduce a new dish at least once a week. For Tuesday's eating a macaroni layer is suggested. Just alternate layers of cooked macaroni sauce, top with buttered crumbs and oven heat until bubbling and browned. Along with it you might serve vegetable vitamins in salad form and wheat-germ

muffins hot from the oven. A fine dish to make one glad that winter is here is a good stew. Six tokens worth of veal from Group C will allow generous servings all round, and a cornmeal biscuit topping will give it both eye and taste appeal. A one coupon expenditure for corned beef should bring satisfying returns. Served hot on Thursday it teams well with jacket-boiled potatoes and faultlessly cooked cabbage. Left for Saturday dinner should be sufficient to mince and combine with mashed potatoes. Then individual cakes can be baked in a small amount of fat and served piping hot with a parsley sauce. Friday is yours to make a fish selection. The two tokens remaining from the week's purchases might be devoted to 10 ounces of sausages to highlight Sunday's breakfast eggs.

Something New

Cooks Are Advised To Try Raw Parsnips In Salad

When apples were plentiful one of the favorite salads was the Waldorf salad since every one loves the flavor of apple, celery and nut combination. You can hardly expect to find it on the table today with its "equal portions of diced apples and celery." This is a chance for the housewife to use her ingenuity in stretching that precious apple. Probably you have served diced, sliced or mashed parsnips, but have you tried them raw? You'll be surprised to find that finely shredded parsnip resembles coconut in color, texture and even its flavor. Parsnips salad requires three cups finely shredded parsnips one medium apple, unpeeled and diced, one medium carrot, sliced, 1/4 teaspoon of salt, and 3/4 cup of salad dressing. Toss all ingredients lightly together. Chill and serve on lettuce.

Not All Cruel

Major Foote Says Some Germans Were Kind To Prisoners

Major Foote, V.C., has been telling of some of the more human and kindly acts of Germans shown to prisoners-of-war during his three years of captivity. It does no harm to hear of a few of them in face of the unmitigated recital of the inhumanities at the Nuremberg trials. In spite of Noel Coward's satirical treatment of those who would not be "beastly to the Germans," it is to be hoped that Major Foote and others will not refrain from giving credit where credit is obviously due. It is upon this basis of decency that the new world must be built—even in Germany—Ottawa Citizen.

Sao Paulo, with a population of 1,380,000, is the second largest city in Brazil, and the third largest in South America.

World War II—the late President
Franklin D. Roosevelt, Winston
Churchill and Joseph Stalin. Chan-
der announced the assignment to the
Dallas News from Miami Beach,
where he started the Churchill por-
trait.

The late President Roosevelt dis-
cussed the painting with him only a
few days before his sudden death,
Chander said. President Truman
wrote Mr. Churchill and Premier
Stalin requesting their co-operation,
he added. Chander plans to go to
Moscow to paint Premier Stalin and
then mold the Big Three into a his-
torical canvas, with the Yalta con-
ference scene as the background.
The finished work will hang in the
Capitol at Washington.

The only two continents on which
certain kinds of birds have become
extinct in historic times are Aus-
tralia and America.

OUR COMPLETE SHORT STORY—

LEADING LADY

By MARION BOUCHER

Copyright
Wheeler Newspaper Syndicate

DAN is really a dear and I'd rather have him for a husband than Charles Boyer himself, but sometimes he is terribly forgetful. It was unparadise of him to forget about the play.

We were having breakfast that morning when he calmly announced: "Won't be home for dinner tonight, Doris. I'm going to see Ferris at last about that advertising contract. I wanted to bring him here for the evening but he seemed to have other plans. Anyway, I am taking him to dinner and we'll be able to discuss matters."

"And that's what you intend to do tonight Dan Crawford?" I asked in an icy tone.

"Why yes, hon, why not?" Dan gulped down the last of his coffee and looked at me with an innocent air which I found very aggravating. When I didn't say word, he continued: "You know it's weeks since I've been trying to see Ferris and yesterday I finally got hold of him. Sure hope I can swing the deal."

"But tonight's our Little Theatre play!" I protested. "Dan, how could you forget? Or maybe you can't be bothered with it—maybe you don't want to see me!"

"Doris, no help me, it slipped my mind completely! I was so anxious to see Ferris that I didn't think of anything else. I do want to see your play, but, gosh, I don't see how I can now. Perhaps if we get through early . . . but you'd better not count on it."

Oh, but you must be there! I was almost in tears. "What will people think if you aren't? I don't see how you could be so thoughtless as to forget about our play."

"I don't see how I forgot either when that's all I've heard you talking about lately." Dan was angry too. "And by the way, I am glad that it will be over tonight—I am getting pretty tired of coming home to a cold supper, with you rushing off to rehearsals every night."

"Why, Dan, you know you're exaggerating—it hasn't been every night. Of course you have to rehearse a lot, when you're in a play."

The only two continents on which certain kinds of birds have become extinct in historic times are Australia and America.

so excited and happy I almost forgot Dan and the quarrel we had had—almost, but not quite, secretly. I wished that he were there to share my little triumph.

The play was over although the audience was still applauding heartily. "That clapping is really for me," Mrs. Crawford, Mr. Milford said graciously to me. "You certainly put enough spirit into your role tonight." There were other compliments but suddenly my success turned to ashes. I didn't care about the play any more—I was thinking of Dan. Slowly, I began to remove my excitement but suddenly my success turned to ashes. "Hurry up, Doris." It was another girl in the cast speaking to me. "We're going to have a party to celebrate our success."

"Sorry, but Doris is coming with me."

Was it really Dan's voice? I whisked around. Yes, there he was. "You were great, hon—I was so proud of you!"

"But, Dan," I murmured, "have you been here all evening? What about Ferris?"

"Of course I've been here all evening and Ferris was with me. He's very anxious to meet you. You know, it was a funny thing. After dinner I decided to tell him that I had to get away—explained that my wife was taking part in a play and I wanted to see it. And that was exactly what he wanted to do. He's very keen about dramatics and had tickets for this play so we came together."

"Did you get the contract?" I asked.

"Yes and I think you helped me put the deal over. Ferris didn't say much all during dinner but he just told me a few minutes ago that he was okay. Guess it was because he was so impressed with your acting!"

"Oh, Dan, I am sure that's not the reason but I am so glad!" Then I called out to the others. "Sorry, folks, but I am not joining the party—I am going with my husband. From now on I am going to concentrate on being his leading lady!"

Few Practice It

Hari-Kari Is Very Seldom Committed By Any Japanese

This curious suicide by the sword, called hari-kari, is what might be called a fake, says the Pittsburgh Post-Gazette. It is pretty much phony. The tradition is held up to the rank and file as a grand old Japanese custom in which great leaders showed off their complete devotion to the emperor.

The fact is that hari-kari was rarely committed by top ranking leaders and only occasionally by second raters. It was something for leaders to preach about but they seldom acted upon the doctrine.

You will notice that Tojo used a gun and made a botch of it, and Prince Konoye took poison. Most of the "no scruple" leaders just go to jail and in due time will pay an extremely formal visit to the hangman. In short, hari-kari is more of an idea than a practice.

Emperor Hirohito

Is Showing Himself To Be A Shrewd Diplomat

Emperor Hirohito is not the mental defective which many believed him to be. He is showing himself as one of the shrewdest and most astute diplomats and politicians the world has seen. No man has ever made a faster transition from one of the standing despots to a high-principled statesman.

Throughout his whole reign, he has been an untouchable, absolute monarch. Today, he is a charming, affable democrat, concerned only with the well-being of his people and of humanity in general. The transformation must be looked on as miraculous—or fiendishly subtle—Windsor Star.

The last known passenger pigeon died in captivity in 1914.

Huge Flying Boats

Will Likely Be Used On British Civil Air Routes

Britain is to have a civil flying boat bigger even than the one hundred and ten ton "Brahmaputra" liner now under construction. The giant flying boat will carry one hundred passengers at a speed of three hundred to three hundred and fifty miles per hour for a distance of five thousand miles. It will weigh one hundred and twenty tons.

The London Daily Herald air correspondent reports that twenty of these aircraft will probably be ordered by British Overseas Airways at an estimated cost of fifty million dollars. They will be used on British civil air routes—Ottawa Citizen.

Columbus' son made the first settlement on Jamaica in 1509.

100000 GIVEN AWAY ABSOLUTELY FREE!

IN THIS UNITED NATIONS PUZZLE GAME
Nothing To Buy— Nothing to Sell

Here is a fascinating and educational puzzle game, in which you can quickly qualify for generous cash prizes. COSTS ABSOLUTELY NOTHING TO TRY— COSTS NOTHING TO WIN. Below are given the names of 30 United Nations Capital Cities. Each of the letters in the puzzle game is to fill in, as on an ordinary crossword puzzle—the names of 15 United Nations Capitals, whose combined letters will total up to the highest possible point value.

SIMPLE RULES

Starting with either WASHINGTON or LONDON—fill in ALL the blank white squares or spaces with a pencil, so that each section on the chart will spell the name of a capital city. Names must be connected and no spaces are to be left blank. Spell from left to right and from top to bottom. Furthermore, one letter to be put in any one space.

Every letter used to spell a name including Washington and London (except letters which join or connect two names) has a point value letter-value chart. Letters which join or connect two names have 5 times their regular value, when in that position. For example the "G" in WASHINGTON is worth 10 points, instead of its regular 2-point value. Likewise the "L" in LONDON is worth 10 points, instead of its regular 4-point value. The "W" is worth 15 points, while each of the two "N"s is worth 15 points. Only names of cities shown in the list of 30 Capital Cities may be used. No name to be used twice, and spelling must be the same as in the list.

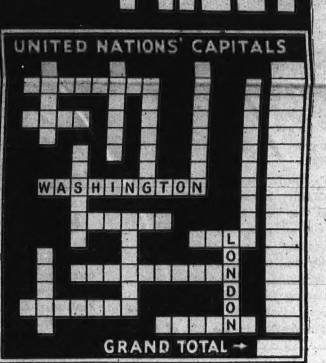

When all the white spaces are filled with letters to spell names—add up the total of each section (a horizontal line) and then fill in the total of each horizontal line in the puzzle provided at the right in the final column. Then add up all the horizontal totals in the bottom to obtain the Grand Total. The object is to find the highest possible total for the Grand Total.

All those contestants who succeed in finding the high correct score, shall then be immediately qualified and eligible to take part, without any delay, in the Final Tiebreaker Puzzle, which will decide the cash prize winners.

IT'S ALL FREE

When you have solved the puzzle and completed the final tally sheet, send your name and address in the space provided below the puzzle, and we will promptly send you the KAMLOOPS RECREATIONAL SOCIETY'S FREE BONUS.

Send no money. All you need is 20c in coins (stamps cannot be accepted) for this pattern. Write plainly Size Name, Address, Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 400 McDermott Ave., Winnipeg, Man.

FULL TOGETHER CANADA

(London by cable). "Moral Re-Armament is the one hope of the world," said Mr. Norman J. O. Makin, President of the Security Council, speaking at a reception for UNO delegates at Clive House, Berkeley Square, London, given by Rear Admiral Sid Edward and Lady Cocke immediately before a crucial Anglo-Soviet session of the Council.

"In the next few hours," he told the delegates, "I have to face one of the most serious ordeals that ever man has been called to undergo. It is an extremely delicate matter and I shall be very glad of your prayers."

The reception was attended by delegates from America, Belgium, Switzerland, Norway, Denmark, Yugoslavia. Among the guests were Dr. Stojan Gavrilovic, leader of the commission, just returned from choosing the permanent site of UNO in America; Dr. Gerbrandy, wartime Prime Minister from the Netherlands; Dr. Ole Bjorn Kraft, Danish Defence Minister, and Mr. Yvrodin Evans, Chairman of the governing body of the ILO.

"We live in the age of miracles," Mr. Makin continued, "yet the very things that were for our enrichment and well-being are used by man for our destruction and have brought tragedy and tears because man has not developed his spiritual qualities in keeping with the scientific and technical advances of this age. Until we can develop in the life of the

people that better, higher receive, an uplift we shall continue to fail. The great spiritual force that God alone can give must fire the life of every man, woman and child if we are to attain a better and secure world."

Mr. Makin revealed that his colleague and friend, the late Prime Minister John Curtin, had frequently told the War Cabinet in Australia's darkest days that he wished it to be publicly known that he had found a new Christian experience in his life during the war years. This experience had made possible his outstanding services to his country and he owed it in large measure to Moral Re-Armament, Mr. Makin declared.

"At this hour," he concluded, "when humanity is given one last chance to unite and to answer the split atom, Moral Re-Armament is raising up a world force and a world philosophy adequate to reshape our times. I draw strength and hope from the evidence of a new spirit spreading in country after country. Moral Re-Armament is rendering a great service. It is the one hope of the world."

STRIKES AND LOCKOUTS IN CANADA, JANUARY, 1946

Time lost due to strikes and lockouts in Canada during January this year was only 8 per cent of the loss during the previous month (December, 1945), it was announced today by Hon. Humphrey Mitchell, minister of labor.

The sharp decrease in time loss in January is accounted for in large part by the fact that the strike of motor plant workers at Windsor, Ontario, had continued well into December.

In January, 1946, the time loss was 20,598 man-days, arising out of twelve strikes involving 2,935 workers. The thirteen strikes during the previous month (December) involved

12,419 workers, and a time loss of 261,819 man-days.

Compared to the same month a year before, time loss in January showed a drop from 32,142 man-days.

Basing the calculation on the number of non-agricultural wage and salary workers in Canada, the figures time loss of 38 man-days for every 1,000 man-days of available working time, as compared with 3.61 for December, 1945, and .42 for January, 1945. In other words, this means that in January just over one-quarter of a man-working day for every 1,000 man-days possible was lost due to strikes.

While the statistics for strikes for February will not be available for some days the labor minister said, Canada continued during last month to show the favorable record with which 1946 started off in January.

In issuing figures that show such a favorable situation in regard to industrial relations in Canada, I think it is appropriate to express genuine appreciation of the manner in which both unions and employers have been carrying on their relations in this country. The numerous cases of peaceable negotiations between management and labor—carried on with the assistance of labor department officials as required—do not always make exciting news, but the fact is that in almost all cases recently negotiations have been carried through to a satis-

National Employment Service
benefits THE WHOLE community

Regular employment and pay envelopes make for carefree families—for prosperous communities—for "good times" for employer and employee alike. The National Employment Service, with offices in more than 200 cities and towns across Canada, serves the needs of both employers and employees—and the local N. E. S. office takes its place in importance to the community among the time honoured community institutions—the Post Office, the Court House, the City Hall.

Without National Employment Service, the worker is left to his own initiative to find a job to support himself and his family. The employer may be unable to reach workers he requires. National Employment Service is the clearing house through which employer and employee are brought together, so that both may have their free choice of the entire employment market.

National Employment Service has
5 main functions:

- 1—Organization of the whole employment market, and bringing together employers and employees;
- 2—Collection of information on employment problems for the use of Government, Management and Labour;
- 3—Administration of Reinstatement in Civil Employment Act;
- 4—Dealing with Unemployment Insurance Benefits;
- 5—Dealing with Out-of-Work Benefits for Ex-Service Personnel.

Make full use of the Local Office of National Employment Service. It is there to serve your needs, and those of the entire Community.

NATIONAL EMPLOYMENT SERVICE
Dominion Labour Department

HUMPHREY MITCHELL, Minister of Labour

factory competition without work stoppages, the labor minister added.

"QUEEN ELIZABETH" DOCKS IN THE DARK

The Queen Elizabeth completed a double record recently when, for the first time in her six year career, she docked at Southampton in the dark—a tricky job for so huge a ship. The first "leg" of the record was put up by her master, Captain C. M. Ford, when at the start of the voyage he brought the liner out from New York without assistance because of the tugboat strike in the port. On arrival at Southampton, Captain Ford said the liner behaved perfectly on both occasions.

It's not where you are living that matters, it's how you are living there.

All veterans of this war from Guelph, Ontario, have been granted a poll tax exemption for the next five years. The by-law was passed by the city council at the recommendation of the finance committee.

Albertans are lovers of the great outdoors and a kindly nature provided ample means to indulge their liking. Here, strategically nestled among wooded hills and picturesque prairie settings, such beauty spots as Elk Island Park, Gull Lake, Sylvan, Pigeon, Buffalo, Sullivan, Wabamun, Cooking, Birch, Lac St. Ann and many other stream and spring-fed lakes are within easy driving distance of most every Alberta home.

Sylvan Lake IS TYPICAL OF OUR PROVINCIAL PLAYGROUNDS

Located approximately 100 miles north of Calgary and 100 miles south of Edmonton, just west of Red Deer, Sylvan Lake Resort features every facility for full expression of your week-end or vacation mood. Warm sunny days and cool, bracing nights combine to induce perfect relaxation. A gay array of sports and amusements: Fishing, swimming, boating, golfing, bowling, riding, tennis and hiking provide plenty of scope for recreation and fun; theatres, fine dancing pavilions and planned aquatic sports cater to your entertainment mood. Overlooking the lake is a modern, fully licensed hotel with cheery comfortable rooms and smart, convenient appointments.

To Preserve Peace

EVENTS OF THE PAST THIRTY YEARS have shown that passive measures are not effective in preserving the peace of the world. Disarmament agreements, non-aggression treaties and other measures of that nature proved worthless in preventing two world wars, and it is apparent that in the future this problem will be approached in quite a different manner. It is clearly recognized now that only can we hope for lasting peace and security if the peace-loving nations of the world are fully geared for war and ready to take action at the first sign of international lawlessness. It is to be hoped that this realistic attitude will be maintained and that present plans for collective security will be successfully carried out. It is important that serious thought be given to these matters now before there is time for any feeling of apathy to develop in regard to them.

Canada Will Be Prepared

It is evident that should there be another war, Canada does not intend to be as unprepared as she was in 1914, and again in 1939. On both these occasions much valuable time was lost in organizing the armed forces and industry for war. It is entirely safe to say that no people in the world are more anxious for permanent peace than are Canadians, but they also realize that should there be another war, the price of unpreparedness would without doubt be much higher than it has ever been before. All the implications of the effect which the discovery of the atomic bomb may have upon warfare in the future are not yet fully known, but there is no doubt but that if another war should come, time would be a much more important factor than it has ever been before.

Modern Weapons Are Important

At the present time, modern weapons and equipment are considered to be perhaps the most important needs in warfare. During the two world wars it was apparent that there was a constant race on both sides for the invention and production of new weapons. When the atomic bomb was produced, the war ended. Had it been discovered first by the enemy, history would now be taking a different course. Recognizing the importance of all this, a department of Research and Development has been added to the Dominion Department of National Defense. The work of this department will be to discover and develop the newest types of weapons for our armed forces, should they be needed. A crown company, known as Canadian Armaments Limited has also been organized. The function of this company will be to effect the speedy conversion of industry to a wartime basis. It is not pleasant to contemplate the possibility of another war, or to prepare for it, but such preparedness may be the surest way of preserving peace and preventing further aggression.

Melrose Orange Pekoe Tea

It is the experienced and exact blending of the tender leaves of specially selected tea that bring to you the richness, strength, and is EXCLUSIVE Melrose flavor!

March 28: Meat "M" 30.

Q—We live on a farm and slaughter meat for our own use. Are we supposed to turn in our meat coupons even though we do not need them for the purchase of meat?

A—Farmers are required to turn in meat coupons to the local ration board in their district to cover the meat consumed by them, although the meat has been slaughtered by themselves.

Q—How many days may a patient be in a hospital before he surrenders ration coupons?

A—After a patient has been in a hospital for two weeks' continuous residence he must have his ration book available for the use of the hospital.

Q—My butcher was complaining the other day that he is always running out of meat tokens. I can't understand why there should be a shortage of these tokens.

A—Consumers are to blame for the disappearance of the meat tokens. The ladies appear to be careless with them and do not keep them handy in their purse when they go shopping. It would greatly assist the butchers if all shoppers would have their meat tokens available when purchasing their meat.

Please send your questions or your request for the pamphlet "Consumers' News" for the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Reaches High Speed

Tests Show Hockey Puck Travels 88 Miles An Hour

The average speed of a hockey puck is 88 miles an hour, Dr. Dana Warren, Omaha University physics professor, said on the basis of a long series of tests with an oscilloscope.

After putting one set of photo-electric cells in front of the blue line and another fifty-five feet away across the net, Dr. Warren and George Hunsuko of the Omaha Knights team bang away until the average was reached.

Team spokesmen said the puck's top speed is "much faster than the determined average."

In modern warfare an "asparagus bed" is made up of rows of steel rails set in the ground to stop tanks.

Answer To Last Week's Puzzle

ON VALUABLE SITE

But No One Seems To Want Apsey House In London

It is odd to read that Apsey House, which the Duke of Wellington recently offered to the Government, is more or less going begging.

No one seems able to make up their mind what to do with it. Popularly known as Number 1 London, it occupies one of the finest and most valuable sites in the whole of London—that despite the fact that the site was originally donated by George II to an old soldier whom he might build a hut and sell his apples.

On one side it looks out on Piccadilly and the Green Park, on the other on Rotten Row and Hyde Park. One of the difficulties about its disposal may be due to the fact that the Crown reserved the right to forbid the erection of any other house or houses on the same site. Otherwise the position would be ideal for one of the great West End clubs, so many of which lost their headquarters in the blitz. But the house boasts few modern amenities and much money would have to be expended on its modernization. —London correspondent, Ottawa Journal.

STOWS AWAY—Held by U.S. immigration authorities at Buffalo, N.Y., on an illegal entry charge, Miss Marcel Philippe, 32, said she sought to join a Canadian soldier she met in her native Belgium, and that she stowed away on a troopship which sailed from Antwerp. The soldier is George Langlois of Kirkland Lake, Ont., who saved the Belgian girl from the Gestapo.

SMILE AWHILE

The following notice was posted at the entrance to a little church in rural Scotland:

"Worshippers who intend to put buttons in the collection are requested to give their own, not pull them off the hankies."

The wedding presents were on view. Displayed in a prominent position was a check for \$1,000, the gift of the bride's father.

"I say, who is that chap laughing at your father's check?" exclaimed the bridegroom, feeling annoyed.

"Oh, that's the bank manager!" said the bride.

Fairy tale of 1946: Once upon a time a man went into a store and asked: "Have you any boxed chocolates?" and the clerk smilingly answered: "Sure. How many would you like?"

Gal: "The only difference between you and a mule is that a mule wears a collar."

Sailor: "But I wear a collar, too."

Gal: "Then I was mistaken; there is no difference."

"This man is annoying me, contable."

"But he isn't even looking at you."

"That's what's annoying me."

Mistress: "How beautifully these things are ironed, Jane."

Maid: "Yes, mum, them's mine—and I'll do yours the same if I have time."

Joe: "That college turns out some great men."

BH: "When did you graduate?"

Joe: "I didn't graduate. I was turned out."

The frying-pan fish, a catfish of Argentina, is named after the cooking utensil because of its rounded body and handlelike tail.

Good Advice to Those WHO SUFFER WITH PILES

Maybe you are one who is suffering from piles. It is a painful condition, but it can be cured. The action of Sloan's Liniment is to relieve the irritation and swelling of the piles. It is a powerful remedy, and it is the only one that is guaranteed to cure piles. It is the only one that is guaranteed to cure piles. It is the only one that is guaranteed to cure piles.

Lack Of Fruit Is Cause Of Skin Trouble Among Children In Britain

Britain's children, according to a doctor, have been forced to adopt an 18th century fruit diet.

Dr. Elizabeth Gourlay, the London school medical officer, says: "There has never been so much skin trouble among children."

"This is caused by lack of Vitamin C, contained in fruit, Vitamin D, contained in fats, and calcium. As regards Vitamin C, we have been reduced to almost 18th century plugh."

Silos are constructed in cylindrical form in order to leave no corners for air spaces that might cause spoilage of the silage.

Party Merger In Russian Zone Worries London

LONDON.—Current moves in the Russian zone of Germany to merge the Social Democratic and Communist parties, which probably eventually will result in creation of a virtually one-party political system in the zone dominated by the Communists, are being watched with the utmost care and with some uneasiness by the British government.

Initiative for this fusion comes from German Communists, strongly backed by Russian military authorities. It would greatly strengthen influence of the Communist party in the zone and in the long run probably lead to subversion of the Social Democrats.

If the Social Democrats vanish, the only party in the zone which has a following comparable to the Communists would be removed. Two other parties, the Christian Democrats and the Liberal Democrats, are small and probably would disappear rapidly in a merger.

This threat of a one-party system is disturbing to London. There have been no elections in the Russian zone yet but if the Communists maneuver to complete power they probably will insist on a single electoral list which would preclude any vote on democratic lines.

Fusion would aggravate political contrasts between the eastern and western zones and create a wide breach, it is believed by authorities here.

In the western zones the Social Democrats under Dr. Kurt Schumacher have turned down such Communist invitations for a merger and stand aloof from any Communist-dominated alliance in the Russian zone.

Politically east and west in Germany would be irreconcilable and the struggle will focus on a battle between Schumacher and Wilhelm Pieck, leader of the German Communists and one of Generalissimo Stalin's chief advisers on German affairs.

While there is nothing in the Potsdam agreement for Germany to prevent fusion of political parties, the trend in the Russian zone is foreign to British and United States ideas for democracy in Germany, which the occupying powers are supposed to re-establish.

The impending merger in the Russian zone is bound to arouse suspicions as to motives and the question may come up for discussion in the Allied control council.

DEVELOP NEW DRUG

LONDON.—Scientists of Imperial Chemical Industries have developed a new and revolutionary anti-malaria drug from coal tar. It is known as "Faldrine" and is far more powerful and effective than any other anti-malaria drug. It is 10 times more powerful than quinine and three times more powerful than meparine.

LESS COARSE GRAIN

OTTAWA.—The Dominion bureau of statistics in a quarterly review of the coarse grain situation in Canada said estimated supplies of feed grains available for the crop year have had to undergo further downward revision from the September estimate, and a downward trend in numbers of livestock is continuing.

AS BEVIN ADDRESSES U.N.O. SECURITY COUNCIL.—Verbal barter accompanied a speech on the Indonesia situation by Foreign Secretary Ernest Bevin in security council of the U.N.O.

NEW RESERVE ARMY

To Be Real Power Of Nation's Defence Says Brigadier Mann

TORONTO.—Pomp and ceremony will have no place in the business-like role of Canada's post-war reserve army, Brig. Churchill Mann said, emphasizing that the "citizen army" will form the "real power" of the nation's defence.

A policy of adequate accommodation and modernized training methods "will attract the type of volunteer we need," the commanding officer of Military District No. 2, Toronto, said. And, unless existing orders are changed the "battle dress" atmosphere of war will embrace all reserve units under his command.

These orders, he said in an interview, came soon after the outbreak of war and put an end to the wearing of the fancy-plumed helmets and brilliant tunics of ceremonial dress and, except in out duty hours in the evening, even serge and the kilts.

Himself a pre-war officer of one of the Dominion's "posh" units—the brilliantly-clad Royal Canadian Dragoons—Brig. Mann expressed regret over the passing of the "fancy dress".

"Before the war it cost a Dragoons officer \$2,000 to equip himself," he said. "No army can be truly representative under this condition."

HAD GOOD RECORD

RIVERSIDE, Calif.—Note to men who complain about women drivers: the army announced recently that spread throughout the coastal trading settlements, Dr. Robert F. Yule, medical superintendent, department of Indian affairs, reported here.

Dr. Yule, who returned from a four-day tour of Indian settlements, said the influenza had spread from reservation to reservation, but it was of a mild type.

Scores were afflicted but only two deaths were reported. Of the 300 residents of York Factory, only two were ill when the doctor arrived. The two were the dog muzzlers who had recovered.

Solution Being Sought For New Policy In Japan

WASHINGTON.—With an admonition from State Secretary Byrnes that "peace in the Pacific is . . . essential," statements of 11 countries began all over again an attempt to determine Allied policy for ruling Japan.

The new far eastern commission made only a bare start at an hour-long session in the ornate reception room of the Japanese embassy.

It heard Mr. Byrnes declare in a welcoming address that the Allies must maintain "the same unity of action and of purpose that won the war" in order to "root out the seeds of possible future wars, wherever they may be found."

It selected the American delegate, Maj.-Gen. Frank R. McCoy, as permanent chairman. It named Nelson T. Johnson, former United States ambassador to China, as secretary-general.

It heard New Zealand and Australia repeat old protests—that the new commission had been set up without consulting all 11 members and that they didn't like veto powers accorded to Britain, the United States, Russia and China. But each said it would go along with the new set-up.

In personnel, performance and progress, Tuesday's meeting was much like the first one of the old far eastern advisory commission last October. There was one big difference. Russia was represented this time by Nikolai V. Novikov, charge d'affaires of the Soviet embassy.

In the intervening months, the United States and Russia had ironed out differences over the type of policy-making and administrative machinery needed for Japan.

RECEIVES DEGREE

University of Miami Confers Honor On Winston Churchill

MIAMI, Fla.—Winston Churchill, standing before 20,000 people in the Orange Bowl stadium, said that it is the responsibility of nations to provide for the education of young men returned from war.

Receiving an honorary doctor of laws degree from the University of Miami, Churchill said that he was a public address for the first time since beginning a vacation at his home six weeks ago.

"Millions of young men have had their education interrupted by the war," Churchill said. "Their lives have been dashed across by the flaming sword. We must make sure that, in both our countries, they do not suffer needlessly for the particular part of the sacrifice they have made."

"I have been cheered and also, so far as my own country is concerned, spurred by the tremendous efforts which are being made by all the education bodies of the United States and by the people generally to make up to these young men by all kinds of special arrangements and facilities what they may have lost by their services at the front."

FOR RESCUE WORK

Canadian Flying Officer Has Been Awarded George Medal

OTTAWA.—Award of the George Medal to Flying Officer J. J. Baillie of Westville, N.S., for "outstanding gallantry" in rescuing three men from a crashed Dakota aircraft in Burma in 1945 was announced by R.C.A.F. headquarters.

FO. Baillie, who transferred from the army to the R.C.A.F. in 1942, was navigator of the aircraft when it crashed June 14, 1945, near Myingyan in central Burma. His clothing on fire, the citation said, he disentangled himself and "although suffering from multiple injuries, a broken cheekbone and concussion, he dragged two Indian other ranks clear of the wreckage."

Hearing screams from the burning plane, he went back and "despite further burns to his hands and legs, he rescued the delirious wireless operator, who resisted his efforts."

MUST SHARE GUILT

Niemoller Says Germans Cannot Lay All Blame On Nazis

FRANKFURT.—In a speech to die-hard Nazis confined in the United States 7th Army internment camp, Pastor Martin Niemoller said German people must share the "mountain of guilt" for the war and not try to lay all the blame on the Nazis or war criminals.

Niemoller's speech was not released at once, although made several days ago. He declared the church had failed in Germany because it failed to rouse people against Nazi concentration camps and other horrors when they first began and did not speak out when the church itself was attacked in 1935.

"Germany's guilt cannot be dismissed and no historical investigations will be able to deny it," the Protestant War submarine commander said.

Truman Calls Conference On Food Situation

WASHINGTON.—President Truman called a white house conference of influential Americans to organize for voluntary sacrifices here so that millions threatened with imminent starvation abroad may be saved.

Former President Herbert Hoover and 12 other leading Americans met with the president to help organize "an aggressive voluntary program on the part of private citizens to reduce food consumption in this country," the white house announced.

This action follows a series of desperate warnings from the United Nations Relief and Rehabilitation Administration and other responsible quarters seeking to impress Americans with the grim fact that millions are almost certain to die of starvation in Europe, India and Asia unless more food is made available from North America.

Canada and the United States are the main supplying countries and Canada, according to the best information available, is doing her share.

Canada's responsibility for meat contributions to UNRRA this year is 79,000,000 pounds. More than one-third of this quota has been delivered. The United States was committed to send 327,000,000 pounds, 200,000,000 pounds in the first quarter, but up to the middle of February had sent only 9,500,000 pounds. These figures were quoted by an American radio commentator, Raymond Swing, in a national network broadcast.

Mr. Swing said this good showing by Canada was due to the fact that "Canadians have acted because their officials have cared more than ours have."

Per capita meat consumption in the United States, now unrationed, is at the rate of 165 pounds a year—40 pounds a person more than before the war.

The average consumption in UNRRA-aided countries is about 94 pounds a year.

The United States had a record wheat crop last year—1,125,000,000 bushels—but seems unlikely to fill UNRRA's allotment of 250,000,000 bushels now desperately needed abroad.

LARGER MERCHANT FLEET

LONDON.—A merchant fleet "as large as pre-war and as much larger as enterprise and initiative can make it" is the objective of the chamber of shipping of the United Kingdom, the chambers' annual report indicated.

USING JET POWER

TORONTO.—James D. Pearson, chief technical services engineer of the Rolls-Royce group, England, told a meeting that no future high-speed military aircraft will be designed without jet propulsion engines.

The China-Burma-India pipeline, longest in the world, is about a fourth longer than U.S. "Big Inch".

DISORDERS SPREADING THROUGHOUT INDIA.—Street fighting in Calcutta became so violent that policemen like this were brushed into the background. Martial law was declared and troops and tanks rushed in. The riots began when Indians protested the seven-year sentence of a Moslem officer of Japanese "Indian National Army." Today police are armed with guns. They have already been forced to fire on rioters.

CANADIAN FAIRER AWARDED VICTORIA CROSS.—Canada's 14th V.C. winner is Honorary Major John W. Foote, awarded the empire's highest decoration for valor for his work in moving wounded from Dieppe beach. Formerly of Hamilton and Fort Hope, Ont., and now senior Protestant chaplain at Camp Borden, Ont., he is the first chaplain in the Canadian armed forces ever to win the empire's highest decoration.

Frank Collicutt, of Crossfield, dean of Alberta ranchmen, is to retire.

Henry Franz was a business visitor from Brocket over the week end.

Mrs. Albert E. Larke, of Macleod, was a visitor to Calgary the early part of the week.

Alberta sportsmen will not be allowed to hunt big game on Sundays during the fall shooting season, the Alberta legislature decided Tuesday.

Mr. and Mrs. J. J. McIntyre, of Coleman, accompanied by Mrs. R. K. Little and Mrs. S. J. Lamey, were visitors to Calgary over the week end, returning on Tuesday.

Mrs. J. Boorman is this week attending the 21st Alberta conference of the Women's Missionary Society of the United Church held at Red Deer. On Tuesday Mrs. Boorman was leader in discussion on the school for leaders in the junior group as well as the baby band.

After April 1st motorists entering the mountain national parks will no longer enjoy the fifty-cent single entry fee at park gates. A recent order-in-council passed at Ottawa requires a pre-war fee of \$2, which entitles the motorist to enter, leave and re-enter as often as he wishes during the season.

Sgt. Werner Schwalb was sentenced by Chief Justice W. R. Howson at Medicine Hat on Tuesday to hang on June 26th for the murder of a fellow German war prisoner in the Medicine Hat internment camp on July 22nd, 1943. Separate trials on the same charge against Pte. Adolf Kratz and L/Cpl. Johannes Wittinger will be proceeded with.

NAMED EXECUTIVE COMMISSIONER

Squadron Leader H. B. Holloway has been named Executive Commissioner of the Boy Scouts Association in the Province of Alberta. Mr. Holloway has been associated with Scouting since 1932, serving as Secretary of the Edmonton district Association and later as District Commissioner for Training. He was born in Simla, India, where his father was an officer in the Indian Army. He was educated in Britain and came to Canada in 1923.

NEW ALBERTA HIGHWAY BRIDGE IS OPENED

The Alberta government plans to complete a connecting highway from Rocky Mountain House and Nordegg to the Jasper-Banff highway within the next five years. That was stated by Hon. W. A. Fallow, minister of public works, when speaking at Rocky Mountain House on Feb. 20th, on the occasion of the opening of the new steel highway bridge at that point.

The bridge was completed at an estimated cost of \$135,000. It has four spans and a total length of 832 feet.

Mr. Fallow said the bridge completion means the opening of an entirely new route for tourist traffic as soon as the road is completed to the Banff-Jasper highway.

The distance from Rocky Mountain House to the Jasper-Banff highway is 118 miles. This is regarded as an indispensable link in the David Thompson highway.

Officials of the Alberta Motor Association see in the opening of the new bridge the prospects for extension of tourist routes and greater attractions to people to holiday in Alberta.

HUSBANDS ALWAYS APPROVE your coffee when it's Maxwell House. They simply love it because "Radiant-Roasting" brings out all the extra goodness in this superb blend of finer coffees.

The way to see eye to eye is to keep on the level with each other.

The Knights of Pythias observed their 82nd birthday on February 23rd.

General H. D. Crerar has retired after thirty-five years in the Canadian Army.

Mr. and Mrs. W. L. Shera left Lethbridge on Saturday on an extended visit to the Pacific Coast.

Major E. A. "Dick" Harper, of the army pay corps, Winnipeg, and Mrs. Harper are visiting relatives here.

Withdrawal of the Canadian army occupation forces in Germany is expected to be completed by the end of July.

Frank Swann and Ernie Breach of the Department of Municipal Affairs Calgary office, are in the Pass this week on annual departmental work.

PLAY SAFE

Do you keep guards in place on power shafts, belts and chains, to prevent being caught in them? Farm accidents seem to be always with us says B. T. Stephenson, Agricultural Engineer, but their frequency can certainly be reduced by proper operation of power machinery.

All tractors manufactured at present are built to American Society of Agriculture Engineer standards with respect to power take-off equipment. Tractor manufacturers are also supplying safety shield equipment for tractors manufactured before these standards were set up.

Keep all shields and guards in place. Always stop machinery to adjust and oil. When machinery becomes clogged, disconnect power before cleaning. Keep off implements unless a seat or platform is provided, and keep others off. There are enough hazards in farming without going out of your way to create others.

Mrs. M. Johnson returned last week from Calgary, where she had been visiting her son-in-law and daughter, Mr. and Mrs. J. Wilson.

Gerald F. Manning, one of Alberta's best known educationists, died suddenly in Calgary on Thursday night of last week.

Our Work Is
NEVER Finished

JOIN the RED CROSS

And help us carry on this work that MUST be done

✚ Crippled children throughout Alberta have been helped for a quarter of a century by the Red Cross. Nearly five thousand have been given treatment at the Junior Red Cross Crippled Children's Hospital. This care includes the finest medical, surgical and dental skill, leading in their school subjects by qualified teachers, instruction in handicrafts and other pastimes to keep the little patients interested and happy—AND IT'S ALL FREE TO THOSE WHO NEED IT. A new hospital is about to be built to give greater facilities for restoring health and strength to these little deformed bodies. Will you help to give a crippled child a chance to run and play and have a happy and useful life?

✚ The need for blood donor clinics and blood banks is not over. While the terrible demands of the battlefield are mercifully at an end, there are still lives to be saved in our own communities by blood transfusions. The Red Cross plans to maintain clinics to make this life-saving service freely available to our own citizens when the emergency arises. One million dollars will be required to provide this free service to civilians in Canada.

✚ Training our citizens in first-aid and home nursing—instructing our junior members (42,325 of them in 1,698 branches in Alberta's schools) in health, safety methods and good citizenship—helping and visiting our wounded veterans—ever ready with relief aid comfort in disaster—these are some of the services that demand a strong Red Cross in peacetime too.

200,000
memberships
are needed
in Alberta

THE RED CROSS NEEDS YOU!

Won't you add your membership to aid this great work? A subscription of one dollar entitles you to membership in the Canadian Red Cross Society and a share in its great work for humanity. If a Red Cross canvasser has not called on you, you may send your subscription direct to—

CANADIAN RED CROSS SOCIETY, ALBERTA DIVISION, 1064 First Street East, CALGARY, ALTA.
An acknowledgment and membership card will be mailed to you promptly.
